The Very Bearable Lightness of Bronze

The Anonymous Family

This series of light sculptures is created throughout a cooperation with artist Patrick Meylaerts.

It's a family of light sculptures which all differ through their form, size and color temperature, but yet all belong to one specific group. Trying to evoke feelings such as anonymity, freedom, need of interaction and solidarity. The light sculptures get through the day almost unattended but once the sun sets, they radiate, practically demanding their notification.

1. 140 cm, 14 cm diameter, metal base 25 cm x 25 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 1 100 €.

2. 170 cm, 21 cm diameter, metal base 30 cm x 30 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 1 600 €.

3. 170 cm, 27 cm diameter, metal base 40 cm x 40 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 2 100 €.

4. 180 cm, 28 cm diameter, metal base 40 cm x 40 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 2 200 €.

5. 185 cm, 34 cm diameter, metal base 50 cm x 50 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 2 600 €.

6. 210 cm, 41 cm diameter, metal base 60 cm x 60 cm, fiber glass, UV, weather resistant topcoat, E27 LED, 3 100 €.

Tank (Ice)

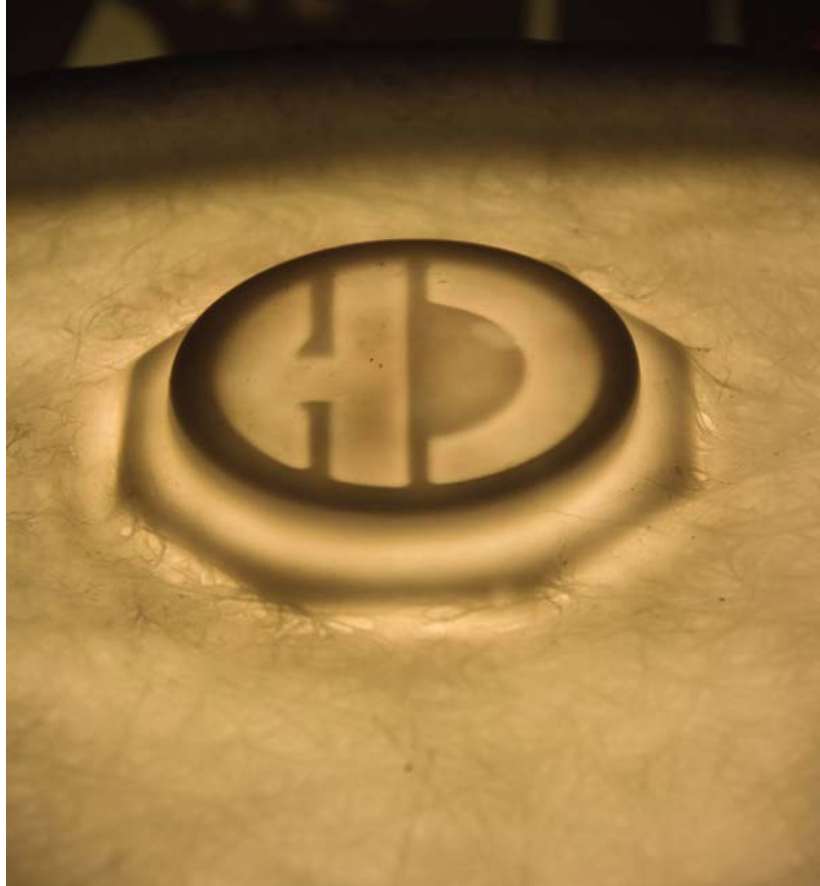

An oil barrel as an atmospheric light or as a cocktail table or ice-bucket. Perfect to keep all your beverages cold during those nice summer garden parties.

Dimensions: 90 cm x 58 cm, 2 400 € (Tank), 2 600 € (Tank Ice)

Light Pollution

Taking an oil barrel out of their context by changing the dark and polluting image and transforming them into bright light sculptures.

Molly

The cloned sheep Dolly gave us the inspiration to give the sheep cloning a go for ourselves. After the first sheep was sculpted, we cloned each body part separately so that we can compose each sheep differently, playing with their anatomy.

Dimensions: 65 x 11 x 75 cm, 3 750 €, wal mounted (inside), 2400 €

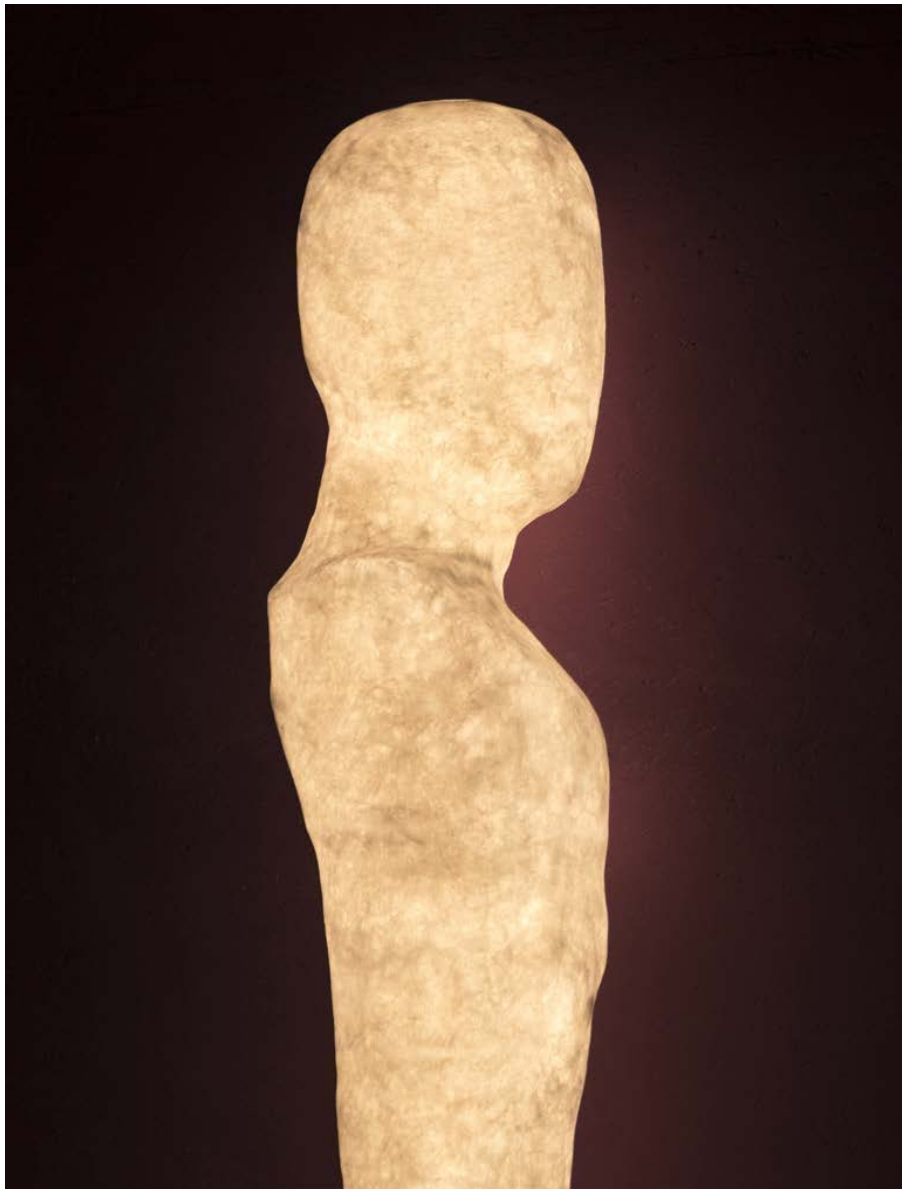

Centomplator

This light sculpture is created throughout a cooperation with artist Patrick Meylaerts. A light sculpture that due to it's tallness has a fierce yet elegant feel. Hanging against a wall or standing stable in a corner of space, keeping the darkness out of self-reflection.

Dimensions: 235 cm (inside use only), 3 300 €

No Leafs

In this project we strive to create a luminous forest. This forest is formed by fiberglass copies of real trees. We try to capture a moment in time of its life cycle. Each time we search a new tree to base our lightsculpture on. Therefore every piece that belongs to the no leafs project is unique and documented through its photograph and its gps coordinates. In that way later on you can make a comparison between the captured moment as a light sculpture and the still further growing tree. As a customer you can also suggest a tree that can be enclosed in this no leafs project.

Dimensions: variable, 10 000 - 20 000 €

The Very Bearable Lightness of Bronze

Cooperation with Ann Van Hoey.

We were inspired by the strong lines in Ann Van Hoey's art piece 'Bronstijd'. It is intriguing to see how only by scaling up and using a different material these compact, heavy and dark sculptures turn into bright, voluminous and nearly floating objects.

1. 150 x 120 x 130 cm, 6 800 €, limited ed. 8 pieces

2. 220 x 205 x 180 cm, 9 500 €, limited ed. 8 pieces
